Hemisphere Gold Inc. (HPGI)

Current: \$1.00

Market Alert - Strong Buy

Gold investors find safe haven as the US Dollar continues to drop throughout 2007.

Market Status:

Since 2006 market analysts predicted gold to hit \$800 per ounce within two years. Gold has hit \$812 an ounce just one year later due to depleted gold supplies and a falling US Dollar.

In an effort to find more gold, recent findings of large Gold deposits in Suriname has turned this small country into a modern day gold rush.

Hemisphere Finds Gold!

Hemisphere Gold's Properties are sitting right in the middle of the largest gold mines in the region and advanced exploration has already found gold deposits as high as 3.55 ounces/ton. This region has already become known as the Gold Belt.

6 Reasons To Own HPGI

- 1: Gold is on a Bull Run, climbing over \$200 an ounce in just 9 months.
- 2: Gold demand is at record highs and is expected to continue increasing.
- 3: Hemisphere has the cutting edge technology and financial team to take this all the way.
- 4: Hemisphere's property sits right in the middle of the Gold Belt where over 50 million ounces of gold have already been extracted.
- 5: Recent findings have pushed share prices up over 120% in the last 30 days.
- 6: Gold is a traditional safe haven for investors in times of trouble as it keeps its value greater than currency.

Hemisphere is launching a full scale marketing campaign with coverage already found on sites like Stockguru.com. With huge results already confirmed HPGI is moving into the final stages of exploration. This leaves nothing left but mining a large deposits in a primed market. HPGI should be on the top of your list for your next investment consideration.
