What is DigiLocker?

DigiLocker is a Government of India initiative which allows you to store your documents online with 1 GB of free space.

Government issued documents will flow in directly if the issuing authority has your AADHAAR. Else, you can manually pull documents from DigiLocker partners**. You also have the choice of uploading documents on your own.

Benefits of DigiLocker

Never lose important personal documents

AADHAAR linked documents will get automatically fetched from institutions partnered with DigiLocker.

Upload and access documents, anytime and anywhere

Upload your own documents and easily access them with Kotak Net Banking

e-Sign and share documents

Self attest documents electronically via e-Sign option to avoid hassles of physically signing documents. Such documents are legally shareable for verification purpose.*

Completely secure

This service is completely secure as the system is backed by the Government of India.
