

## INVESTMENT PROPOSAL

Dear Sir,

Good day. I am Dean Johnston, a wealth manager with Cadiz Asset Management based in South Africa. One of the clients in my portfolio is interested in investing in your country and he has asked me to help him seek private business owners and investors who may be interested in this proposition. The investment portfolio is to the tune of \$73.8 Million USD (Seventy Three Million, Eight Hundred Thousand US Dollars).

I am contacting you to find out if you would be interested in this proposal. Due to my client's political position in his country, he wants this done as discreetly as possible. We will handle all the logistics for the movement of the funds to you.

Kindly contact me if you think you can handle this and if your company has any existing or pending projects that needs funding.

I have decided to keep this very short for now and will give you more information and all the relevant details when I receive a positive response from you.

Best regards,

Dean Johnston
